## **CCA Mission statement 2020**

---

CCA exists to grow community for Homeschool families (parents and children) and to create an academic and godly environment that serves to supplement and come alongside academic endeavors being worked on at home.

### Goals -

That students would be challenged to grow their ability to participate appropriately with teachers and other children in a classroom setting. (sitting still, raising hands, serving others, waiting their turn, listening attentively, walking quietly in halls)

That students would grow their skills in presenting in front of a group. (public speaking and choir).

That students would be challenged academically in an age-appropriate way. (science information, memorization, writing, speaking...)

That students would have opportunity to grow friendships with other kids.

That parents would have the opportunity to build friendships and feel supported by one another. (exchanging ideas, reaching out to one another)

That students would be challenged during gym time to learn to compete in a healthy way. (learn how to lose and win well)
